Parking

Parking will be available at a lot that is located just after the Living Classrooms campus on the right. It is labeled “PMI Parking” the cost is \$3 for the day. Someone will be at the edge of the LC property directing folks toward the lot.

Note: The construction in the area makes the neighborhood a little chaotic – therefore look for the guidance provided by the LC staff. The meeting room that we are meeting is located in the main building that is located next to the big wooden tower on the property – if you get confused walk toward that structure and you will be ok.
